Education

Nanodegree
Udacity

Advanced Data Track

2021 - 2022

Bachelor of Computer Science
Mansoura university

Graduation project FitFlex

2017 - 2021

Work experience

Data analyst
Roqay - trainee

2020-12 - 2021-9

Duties

- **data wrangling**
- process of gathering, assessing, and **cleaning** data.
- apply **inferential statistics** and probability to real-world scenarios
- analyzing **A/B tests**
- **clarify hypothesis system**
- building supervised learning models
- apply **visualization** principles to the data analysis process.
- Interpreting The Results and Visualization
- Explore data visually at multiple levels to find insights
- create a **compelling story**

Big Data Developer
Huawei - certified

2020-11 - 2020-9

- know big data open-source technology,
- the common and important big data component technology principles in the industry,
- Huawei big data solution and the basic operation application scenario synthesis of big data components.

AI DEVELOPER
IBM - certified

2019-6 - 2019-11

Duties

- Developing AI hottest application, developing a chatbot for student assistant build new models for motion detection develop NLP applications

Odoo developer
Select solutions - trainee

2018-6 - 2019-11

Duties

- Installing a new server maintaining existing server , developing specialized hospital system

projects

Ford GoBike System Data

FitFlex - Graduation project

IT IS A VIRTUAL GYM TRAINER APP ,THIS APPLICATION USE HUMAN POSE ESTIMATION AND COMPUTER VISION.

https://github.com/EsraaHelaly/FitFlex

Skills

Data Analyst

high analytic insights
supporting decision making,business analysis , marketing analysis, and
Telling a story

Statics

Experienced in Inference Descriptive Statistics
Central Tendency Sampling Distributions, Hypothesis Testing, and A/B
Test

Microsoft Excel

apply vital functions
analysis data using pivot table
create dashboard

POWER BI

Dashboarding

Databases

- SQL
- make vital queries
- extract data from multiple sources

Programming

- Python , pandas , Matplotlib , seaborn sklearn
